

Book now and we will reduce our Winter rate by 10% we will also recommend some Winter & Christmas Special events to make your break very special

CHRISTMAS 2009 IN PROVENCE

Have you ever wished you could do something different at Christmas?

I don't know about you but after Christmas Eve it can get a bit boring.

Why not spend a week or two in Provence around that magical time. We recommend October, November and December

The French centre their lives on the family, their food, their home comforts and last of all their car and work.

Why not join them, relax and enjoy the atmosphere?

It is our wish to make sure you have something really special. The days can be warm and the nights crisp and cold as they were in our country when I was growing up. The area is peaceful with very little traffic and very little people. What else could you ask?

You can enjoy the Christmas markets. Our house is warm enough to enjoy the winter in the fantastic area of Provence Cote d' Azure. We are in the VAR region near to The Verdon Gorges. The views can be spectacular with snow clad mountains. Having said that I have seen people sunbathing and bathing on the beaches of Cannes and Nice at this time of year. Don't feel as though you have to!!

Please email for very special prices and for this period. We will give you full information and try to add some Christmas Cheer to your stay. Flights are inexpensive at this time of the year if you book in advance

We are taking bookings now for the splendid month of October, The crisp month of November, the colder and vivid months of December January and February.
